COP. 1

Regarding Index for Descendants of Girls.

The "other name" index for descendants of girls list only the surname of the man the Tomkins-Tompkins girl married, and does not contain surnames of ALL persons descended from her. Index as above at end of volume III of Descendants of Girls.

Index for surname of the man who married the Tomkins-Tompkins girl in this Amplified Version part is only name shown in the index for the amplified version, and does not contain list of ALL surnames descended from her descendants.

In the first three volumes of Descendants of Girls" will be found probably most of the girls is this supplementary section the index for which will be at last part of the last volume of this supplement.

When we made the first copy of Descendants of Girls we had thought would have to go to hospital for what we thought was a serious ailment but which now one year later is much improved, we did not at the previous writing list ALL descendants of girls because we did not think we would have time to do so.

If possible later on we will make a "grand index" listing ALL surnames in all of the records we have gathered including the names in all previously written MSS.

So, in tracing descendants of girls you must look in ALL the several indexes for you will find the same family in sometimes three different places in the combined MSS. And also for tracing BACK.

DOTY.
amplified version

From "Family of Ethan Allen Doty" section of "The Family of Edward Doty."

It says the family of Elijah Tompkins moved from Dutchess County to Coeymans, Albany Co NY when it was almost a wilderness and it says that Elijah was an uncle of gov Daniel D Tompkins, and descendant of John Tompkins who came from North of Ireland to Plymouth Colony. This is the Elijah Tompkins who married Barbara Church. We find almost all the early Tompkins of New York claim kinship to Gov Daniel D which does not always agree with our version. We rely on our version as in The Clan of Tomkyns .

Note- the parent of a group is listed here out of sequence but by the numbers it is easy to trace back. This will suffice when there are only a few members in a record, but it will not do if there are very numerous ones in the item.

Many compilers use this "group" form but we find it very difficult to trace with a great many.

JONES
amplified version

Records disagree as to which of the sisters, Martha and Ruth Tompkins daughters of Nathaniel Tompkins and Mary Forshay, married Daniel Jones. One record says Martha married Lewis Jones and Ruth m. Daniel Jones, other says vice versa. But apparently these are descendants of Daniel Jones but by which Tompkins girl we do not know: We list it here as Martha but may be Ruth
